Re: Request for grant money

On behalf of the York County Historical Committee we are requesting \$3,000.00 in grant money for the completion of the cleaning and cataloging of the Chischiak Watch artifacts.

Prior to the building of the structures at Chischiak Watch a dig was conducted. The timing of the start of construction and the money given for the dig caused a choice to be made as to the completion of the work, either try to get as much out as possible or stop while they still had enough money to wash and catalog what they had already found. They choose to get as many artifacts as possible and store them for the future.

That was over 10 years ago. This is that future and we have a wonderful opportunity to obtain the collection and complete the work with your help. When Mr. Nick Lucchetti contacted me in regards to the Historical Committee obtaining the collection we discussed the need of completing the work. He estimated the work needed to cost \$6,000.00. He also put us in contact with a grad-student who was willing to do the work.

We have obtained a grant of \$3,000.00 from the Yorktown Foundation for this work and hope to obtain the remaining balance from a grant from the County. Below you will find an email from the Yorktown Foundation in regards to their grant.

The collections consists of approximately 150 legal size boxes of items. The DAR has given permission for us to use the garden behind the Custom House to wash what artifacts still need to be washed. This will enable us to have visitors watch the process.

I will be very happy to discuss any questions you may have and would be very willing to attend the June 5 meeting of the Board of Supervisors to answer any questions they may have.

Thank you.

Bonnie Karwac, Chairman
York County Historical Committee
